

# Easter Monday 2026

April 6, 2026—Yesterday, on Easter Sunday, President Donald J. Trump posted on Truth Social: "Tuesday will be power plant day and bridge day all wrapped up in one in Iran. There will be nothing like it. Open the f\_\_in strait, you crazy bastards, or you'll be living in hell. Just watch, (all in capital letters). Praise be to Allah, President Donald J. Trump."

That should convince any sentient human being on this planet that the President of the United States has lost his mind.

Apparently, there are no patriots left in the United States in positions of power who recognize the extreme damage being done to our republic, not only by this president but by those posturing Democrats who criticize him but will not stop him because they want to win a majority in the mid-term elections.

We will be fortunate if it is only the United States which is destroyed by the foolhardy actions to come, whether it is sending thousands of troops to their deaths on the ground, or the use of a tactical nuclear bomb. Apparently nowadays, a tactical nuclear bomb is one of the magnitude used on Hiroshima or Nagasaki. Let that sink in.

American leaders who have been thoroughly corrupted by participation in the crimes of Jeffrey Epstein seem not to care about the deaths of tens of thousands of Palestinian children, refugees in Sudan, or citizens in Haiti. They do not care about the 1.8 million Ukrainian soldiers who have lost their lives in our proxy war with Russia. They certainly don't care about the children killed in a girls' school in Iran. Do they realize that what we now do to Iran, a nation of 93 million people which graduates 230,000 engineers per year, which did not attack us or any other nation, will

destroy whatever tattered legacy of goodness there was in our once proud republic, which should have been celebrating its 250th anniversary of independence from colonialism this year, but is instead participating in its own self-destruction?

As a candidate for the presidency of the United States of America who loves the Constitution of our republic and loves our nation, I am calling on any patriots of courage, whether in the intelligence community, the Pentagon, the State Department, the Congress, or the Cabinet of Trump, to take action as our Constitution mandates, to halt this insanity.

President Trump and his nincompoop, pompous son-in-law, Jared Kushner, are being ill-served by the advice of former MI6 chief Sir Richard Dearlove and their Israeli-Zionist money bag sponsors. President Trump, who is clearly mentally ill, cannot be held fully accountable for his delirium, but Pete Hagseth, Jared Kushner, Steve Witkoff, Marco Rubio, Lindsey Graham, and others must be immediately removed from their posts and tried for advocating crimes against humanity, not to mention treason.

To be explicit, I am not impressed by posturing politicians who believe they will celebrate election victories over the dead bodies of millions of people. This war escalation must be stopped now. I believe that President Putin of Russia and President Xi Jinping of China would both be willing to work with the United States to find a way for President Trump to extricate himself from his current march toward doom. However, unless there is a dramatic change in the leadership of this nation immediately, it will be apparent to the world that there is nothing of integrity left to work with in the United States.
